All orders paid by cheque will be dispatched A.S.A.P. but ownership will not transfer to purchaser until the cheque has been cleared. A restocking fee of 15% plus all Freight cost will be charged for standard stock items returned, non stock items are non returnable.

If delivery is to be made to a private address and no one is home when the driver delivers the parcel, the driver will return the parcel to the local depot and you will be required to pick the parcel up from the depot. If you wish the parcel to be left then you will need to provide us with an "authority to leave" and a safe location for it to be left. We prefer due to this fact that all deliveries go to a business address where possible.

All warranted products are sold on the basis that they are covered by a Parts Only warranty and are not covered for the labour cost of repairs or the transport there of to or from a repairer.

All claims for damaged goods or missing parts must be made with in 24 hours of receipt of order.

Disclaimer:

Our company and or it's proprietors or staff will not be liable for neither results obtained or consequential loss nor will it be liable for injury or damage caused to a person property or animal from equipment it sells nor will it be liable for loss or damage caused by users reduced product knowledge.

Freight:

Some goods are damaged during transit and all packaging should be checked before signing delivery note. All claims for transit damage must be made within 24 hours of receipt. All glass products are checked before packing and because of their fragile nature, we take no responsibility for broken globes and thermometers. Should the liquid in a thermometer separate, it will give a false reading if used before fixing. Please phone or email to find out how to go about fixing it
